GIN & TONICS

Choose from one of our gins listed below in a single or double measure. All our Gin and tonics are served in a bowl glass with plenty of ice, Fever Tree tonics and our bespoke range of fresh & complementing botanicals.

The botanicals we will primarily use are: Orange, lime and lemon zest, dried juniper, cucumber, cranberries, cardamom seeds, green apple, fresh rosemary.

The tonic that we have selected for our gins and tonics is a premium traditional tonic made with spring water, Rwanda's quinine fever tree, sugar cane, citric acid, orange oil & lemon zest. It is a neutral tonic, not very fizzy, mild in flavor without too much bitterness in the finish. It is the perfect tonic for our selection of Gins.
